

A WORKING WI-FI SOLUTION

Allow yourself the luxury of working in bed, checking email poolside, or surfing the Internet on your balcony without the hassle of cables and wires. Wireless technology is the future standard.

IS IT SAFE?

Safeguarding your communications from potential hackers, snoopers, and wrong doers is essential when using the Internet. GBE WiFi is proactive with respect to security. By encrypting user communications, GBE WiFi subscribers are taking the necessary steps to protect their information from unwanted eyes. We have implemented the same security solutions employed by Fortune 500 companies, banks, and leading online merchants to secure Internet communications. And we will continue monitoring trends to insure network security.

BULK Wi-Fi

60-70% less than
what you are paying
for Internet.
Let us show you!

Wi-Fi solutions that works for you.

GBE WIFI IS THE ALTERNATIVE TO TRADITIONAL INTERNET PROVIDERS.

In the current economic climate, businesses have to find ways to reduce operating costs and look for new revenue opportunities - GBE WiFi offers Wi-Fi products to help your business accomplish both objectives. Let us show you how we can.

OUR PROCESS

Wi-Fi is a radio signal. To achieve optimal signal strength throughout your property we do a detailed inspection and send the data to our engineers. Our resident brainiacs will then inspect your property using advanced technologies and data collected by our trained site inspectors. Matters ranging from building materials used at your property, building layout, power lines, and even microwaves are considered. These measures help insure your signal strength is not compromised and your customers enjoy an effortless Wi-Fi experience.

YOUR SAVING

Consider the cost of Internet Service Providers to a Condominium complex. Assume 200 condominium units with an average cost of Internet per month at \$45 per unit. $\$45 \times 200 \text{ units} = \$9,000$ per month. \$108,000 per year. Through innovative technology, GBE WiFi can provide wireless Internet service to the same 200 units for 60-70% less. Significant savings. Real value.

FINANCING AVAILABLE

We have several options available to you in terms of equipment financing which include both traditional and innovative financing mechanisms. We also offer an array of leasing options designed to fit your business needs. We strive to work collaboratively with our clients to achieve mutually beneficial financing solutions.

INVOICING SOLUTIONS

If you are a hotel/condo or a vacation rental property, you will be happy to know that we have invoicing solutions for generating revenue by offering fee based Wi-Fi. The revenue you earn is an easy way to offset your cost of implementation and for creating an ongoing revenue stream.

HOA RIVER OAKS II, MYRTLE BEACH, SC
